

PHARMACEUTICAL | FOOD | COSMETICS | WATER | CHEMICAL

ABOUT US

Founded in 2008, Stilonn Valves, as a sanitary valves manufacturer has grown to become speciality valve supplier for high precision stainless steel sanitary valves.

Stilonn Valves uses advanced digital control machine tools, processing and testing facilities to ensure that our products meet Customer expectations for reliable performance and quality. We design and manufacture a wide range of stainless steel sanitary valves and fittings such as sanitary butterfly valves, sanitary ball valves, sanitary check valves, sanitary sight glasses, and sanitary unions, etc. They are widely used in the dairy, food, beverage, pharmaceutical, cosmetic, and other industrial markets. All our products are manufactured in accordance with different surface finishes, materials and industry standards including ISO, DIN, IDF, and SMS. They underwent extensive testing and field evaluation prior to introduction, incorporating advanced design characteristics with high-quality materials.

OUR COMPANY

By focusing on continuous innovation, quality, design and a close relationship with its customers, Stilonn is thriving in Hygiene Valve Market.

On-going investments in Research and Development are the driving force of the design of new items, in order to meet the increasingly more demanding needs of the Indian and Global market.

We are continuously improving our processes and systems to deliver value to our customers.

The highest quality is ensured by the careful selection of certified manufacturers of raw materials exclusively sourced and by processing them through mechanical operations carried out entirely in our production site located near Mumbai.

Our high standard of service relies on exibility, punctuality and accuracy which, thanks to our prompt stock availability, ensures timely deliveries, an added value of our product offering.

Our Satisfied Customers
